

Self-Assessment and Evaluation of Performance

The Board of Governors regularly reviews its own performance in a range of ways, including open forum discussions at strategic planning events, feedback to the Clerk and completion of self-assessment exercises as well as drawing on external sources such as auditors and Ofsted. As a result of self-assessment and evaluation of Board performance, a number of actions have been taken such as introducing limits to the number of terms the Chair can serve, streamlining the number of committees, moving to a simple form of e-governance and the introduction of a Performance and Quality Task and Finish Group. The Clerk maintains a Board Action Plan which supports the performance and development of the Board.
